SUPPORT & VOTE LEFT UNITY

Getting nowhere with politicians?

Politicians will say anything to get your vote. But behind the glossy promises, all of the big parties are really just offering more of the same.

They all plan to destroy our public services with spending cuts – and blame immigration for society's problems to let their banker friends off the hook.

Left Unity is different. We are a new socialist, feminist and environmentalist party, not part of the corrupt Westminster elite.

We know it's not fair that a few live in mansions while others are homeless. We know it can't be right that the rich get richer while poor people queue at food banks.

Left Unity stands for equality, justice and real democracy. **Get involved.**
