

**THEY SAY**  
THERE'S NO MONEY FOR  
**SCHOOLS**  
THERE'S NO MONEY FOR  
**HOSPITALS**  
THERE'S NO MONEY FOR  
**A PAY RISE**

...SO HOW IS THERE  
ALWAYS MONEY FOR  
**WAR?**

# *We can't feed the poor, but we can fund a war?*

**Left Unity opposes airstrikes and all other forms of Western military intervention in Iraq and Syria.**

For us this is not a difficult issue. We are completely opposed to Isis but war is not the solution. Isis are monsters, but they are monsters of the West's making. Forged in the fires of war, more bombs only hasten their spread – and sow untold death and destruction.

As a new political party of the left, we are clear in our opposition to war and imperialism – just as clear as we are in opposing the dismantling of the welfare state.

The two issues are inextricably linked. The Tories, Lib Dems and many on the Labour right claim that there is 'no money' for public spending, but support billions

upon billions being spent on a war at the drop of a hat.

**We stand with Jeremy Corbyn when he says that austerity is a political choice not a necessity and when he opposes bombing in Syria and elsewhere. We do everything we can to support these causes and fight for a different kind of politics across the labour movement and beyond.**

We are a new kind of party, with feminism, socialism, environmentalism and anti-racism at its heart. It's a party that supports the campaigns and struggles of ordinary people, for public services, for equality, and for real democracy, and it is against all forms of discrimination.

A new kind of party for a new kind of politics. Join us.
